DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

2. The disclosure is objected to because of the following informalities: on page 18, line 6, "adsorbed" should read--absorbed--.

Appropriate correction is required.

3. The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 1-10 are rejected under 35 U.S.C. 112, first paragraph, as containing subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the

invention. In the claims and specification it is not clear what applicant's invention is...what does applicant mean by "closed circuit"? Which capacitor is external or outside?

Claim Rejections - 35 USC § 102

6. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

The reference by Sakurai discloses a closed circuit oscillator device with a logic element(3, see figure 1), a crystal(piezo, 1), and resistor(5); note external capacitors(15 and 19). Operation in the range 1MHz-500MHz is also met.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1,2,4,6,7 and 10 are(as best understood) are rejected under 35 U.S.C. 102(b) as being anticipated by JP3165236 cited by applicant.
